

Environmental Policy

Shri Gang Industries and Allied Products Limited

At Shri Gang Industries and Allied Products Limited, we recognize the importance of protecting the environment and minimizing our impact on the planet. As a responsible liquor industry company, we are committed to reducing our environmental footprint and promoting sustainability in all aspects of our operations.

Key Objectives

1. **Reduce water consumption:** We will implement water-saving measures and technologies to minimize water usage in our manufacturing processes.
2. **Minimize waste:** We will reduce, reuse, and recycle waste wherever possible, and ensure that all waste is disposed of in an environmentally responsible manner.
3. **Reduce energy consumption:** We will implement energy-efficient practices and technologies to reduce our energy consumption and greenhouse gas emissions.
4. **Promote sustainable sourcing:** We will work with suppliers who share our commitment to sustainability and environmental responsibility.
5. **Protect biodiversity:** We will take steps to protect and preserve natural habitats and ecosystems in areas where we operate.

Key Initiatives

1. **Water conservation:** We will implement water-saving measures, such as installing low-flow valves and implementing water recycling programs.
2. **Renewable energy:** We will explore the use of renewable energy sources, such as solar and wind power, to reduce our reliance on fossil fuels.
3. **Waste reduction and recycling:** We will implement recycling programs for paper, plastic, glass, and other materials, and reduce waste wherever possible.
4. **Sustainable material:** We will explore the use of sustainable packaging materials and designs that minimize waste and reduce environmental impact.
5. **Employee engagement:** We will educate and engage our employees on environmental issues and encourage them to contribute to our sustainability efforts.
6. **Emergency preparedness:** We will develop and implement emergency response plans to address potential environmental incidents

Monitoring and Reporting

We will regularly monitor and report on our environmental performance, including:

1. **Water consumption:** We will track and report on our water consumption and identify opportunities for reduction.
2. **Energy consumption:** We will track and report on our energy consumption and identify opportunities for reduction.

3. **Waste management:** We will track and report on our waste management practices and identify opportunities for improvement.
4. **Air and water quality:** We will monitor and report on air and water quality in areas where we operate.

Continuous Improvement

We are committed to continuous improvement and will regularly review and update our environmental policy to ensure that it remains relevant and effective.

Accountability

We will ensure that our environmental policy is implemented and enforced through:

1. **Employee training:** We will provide training and education to our employees on our environmental policy and procedures.
2. **Regular audits:** We will conduct regular audits to ensure compliance with our environmental policy and procedures.
3. **Corrective action:** We will take corrective action to address any environmental incidents or non-compliance with our policy.

By implementing this environmental policy, we aim to minimize our impact on the environment, promote sustainability, and contribute to a healthier planet for future generations.
